INTRODUCTION

Roadsafe Asphalt Pty Ltd was established in Melbourne, Vic in 2007.

After only working in the Asphaltting industry for a few years, Elias knew he had landed on something more than just a J.O.B; This was his passion. Knowing he needed a partner to create his Vision, he went to his best friend John who brought his mechanical mind to round out what was the beginning of Roadsafe Asphalt.

From humble beginnings, Elias and John were passionate about delivering a high-quality service to the small to medium sized jobs. Councils, Utility Companies, and private driveways were the foundations of Roadsafe Asphalt.

Fast forward a decade or so and Roadsafe Asphalt have developed a 'Go to' reputation for getting the job done, within the given time frame, with a high quality of finish and maintaining the safety of their crew and public around them in mind.

Elias and John have always been of the attitude, 'what you see is what you get'. They are both family men with high levels of integrity and morale values. And this is at the core of how they operate Roadsafe Asphalt, for them the Culture of the group is everything. This reflects on the longevity of many of their employees, some of which have been there from day one, and their clients. Both of which often become more than just employees and clients, but partners in creating this Vision.

Continually searching for ways to add more value to their clients, Roadsafe Asphalt has grown beyond more than just laying asphalt. Civil, Profiling, Street Sweeping and Traffic Management are but a few of these additional services you can now rely on Roadsafe Asphalt for.

COMPANY CULTURE

Being a service-based industry, we know we are only ever as good as the team behind us. So, we continue to invest heavily in our Company Culture and drive this message throughout the group. Here is a snapshot of our Culture and Core Values;

Vision - Where we are heading

**Growing Together
To Make A Difference**

Values - What we know we care about

**Honesty, Commitment,
Trust**

Culture - How we ride

**Proud, Results Driven,
Culture Focused, Awareness**

DIRECTORS

Elias Mantinaos
Managing Director

Having started from the ground up has given him the industry experience and passion to grow a highly recognised and skilled workforce. Perhaps one of his greatest skills is the willingness to think outside the box and then give it a go.

When he's not structuring the next vision for the group, you'll find him playing with his kids, at the gym keeping fit or educating himself.

John Loncaric
Director And Fleet Manager

Starting his career as a qualified industrial electrician, he learned the discipline and attention to detail required to be successful. He then transferred these skills and disciplines into his partnership at Roadsafe Asphalt, ensuring their equipment is maintained and operational.

Outside of work, John is a family man at heart and enjoys being part of his local football community. You might even see him running the sideline on a weekend game.

MANAGERS

Hector Psihountakis

Field Operations Manager

Roadsafe Asphalt was Hector's entry point to the Asphalt industry in 2008. His obvious passion for his work colleagues and sense of humour made him extremely valuable to the group.

With much hard work and mentorship, Hector became a highly skilled foreman. He then grew this skill and passion and was elevated to head of scheduling operations manager.

Soner Kurt

Administrative Operations Manager

Since 2014, Soner has been in the construction and asphalt industry.

Starting off from an administrative role and moving his way up to managing the OH&S accreditation credentials and maintaining a safe workplace. Having also worked along side the head scheduler where he gained an invaluable understanding of the overall company's procedures. Soner's continual development and thirst for growth now sees him leading the administrative operations and is known as the go to person to get it done.

Joji Varea

Project Supervisor & Lead Estimator

Joji entered the asphalt industry in 1998 and hasn't looked back. Finding a real passion for working in teams, outdoors and the pride in knowing he is leaving his mark on Australian roads. You'll be hard pressed to find someone more knowledgeable and charismatic than Joji. A great guy to have running your project and to sit and have a drink and meal with.

Callen Rogerson

Scheduling Manager

Callen's passion for attention to detail and exceeding client expectations are a couple of the many qualities he brings to our Civil and Asphalt departments. From small to large projects, Callen always looks to deliver to the highest of standards. Rising from the field, into a Scheduling Manager gives Callen a full 360 degree understanding of what it really takes to make the most complex of projects succeed.

Rob Gussenhoven

Profiling Division Supervisor

A highly sort after profile operator with thousands of hours of experience. Rob's reputation for his attention to detail to exceed our clients expectations is what keeps our clients coming back. You'll be hard pressed to find someone with a greater care for his team, machinery and the quality of his work.

ASPHALT REINSTATEMENTS

With a growing population and ageing roads, there is a continual need to ensure our roads and footpaths are maintained in best condition. Which means a safer and smoother experience for our community.

Bringing our passion, experience and world class methodologies has allowed Roadsaf Asphalt to be known as the 'go to' company for reliable and high-quality finishes.

Roadsaf Asphalt are proud to be supporting the Australian community achieving this, since 2007.

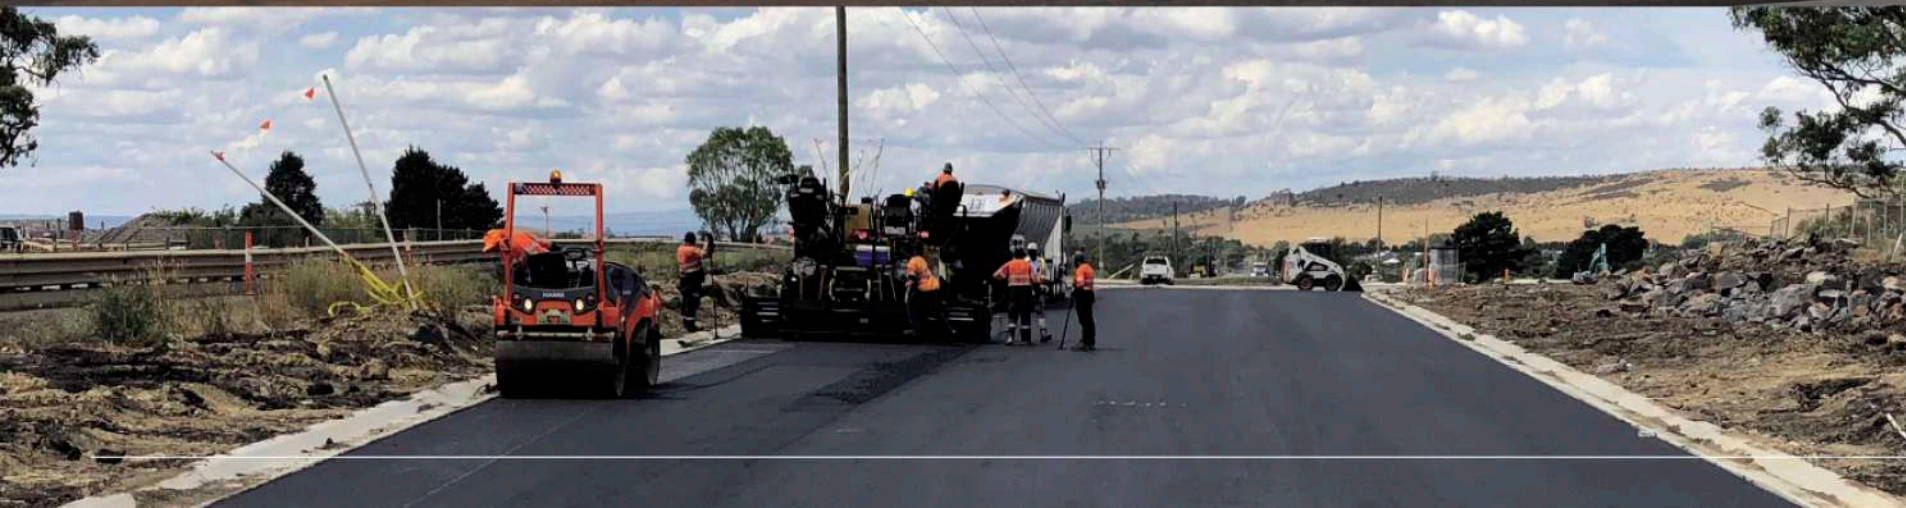

PAVER HIRE DIVISION

When you need a skilled and reliable team to assist your project, Roadsaf Asphalt have you covered.

Equipped with state-of-the-art machinery to ensure we meet the highest of standards every time, which means you have peace of mind. We also ensure the reliability of our equipment with our in-house fulltime qualified mechanic and fleet manager.

Our Paver Crews are here to support your projects.

Your Paver Hire Team: **Paver, Multi, Roller, Bobcat, 8x Skilled Labourers**

PROFILING DIVISION

Whether you have a small or large project on the go, our highly skilled operators are ready to assist. They come with the latest machinery and technology to ensure a high-quality outcome and a professional experience that you can rely on.

You can book our team just for profiling with our 1m and 2m machines. Or we can deliver a complete package solution with Bobcats, Sweepers, Tandems and Truck & Trailers.

CIVIL

Roadsafe Civil was developed after continual requests from our clients and partners. We are proud to offer a complete civil division with qualified and highly skilled engineers, project managers and labourers to provide a quality service you can depend on.

Civil contracting services include:

Full road & footpath construction and reconstruction, Road maintenance, Carpark construction, Drainage, water, and sewer infrastructure, Earthworks, Concrete installation, Landscaping

ROADSAFE PARTNERSHIPS

Since 2007, Roadsafe Asphalt has continued to build and nurture strong partnerships with key industry figures and groups. This combined knowledge and experience ensures the industry, and ultimately the Australian public achieve the best outcomes.
